xtreme com bd 1011 31 de march de 2013 autor i ge lugan return of the solo paul mccartney on playin with son carter they are actually offering solos separately not as part of playin as far as i know nothing has been confirmed on that yet Whilst the lyricist at the time of the song's creation is Paul McCartney, Sir Paul McCartney, it is historically speculated that the song was written in tribute to a girl named Cherry. The son of EMI's public relations, Joe Tartell, stated in 1987 that "there are three groups of people who work together on the group of songs from early Beatles days", one of which he says is Paul McCartney. Cherry Jubilee (film) In 1987, Richard Fleischer, who directed the Beatles films Backbeat (1988), A Hard Day's Night (1964), Magical Mystery Tour (1967), Yellow Submarine (1968). Help! (1965), and Yellow Submarine (1969), made a movie about the early days of the band, Cherry Jubilee (1987). The plot involves Paul and John Lennon visiting Mr. and Mrs. Jubilee, and their comments about the band being immortal. It shows a timeline of Beatle events, and many of the events portrayed are taken from real events. The title of the movie, Cherry Jubilee, is a reference to the fact that they were involved with a girl named Cherry, the daughter of a wealthy and influential man in Liverpool. This would seem to back up the argument that John wrote this song in tribute to her. Bubbles Lennon and McCartney recorded the song on October 26, 1965, at Abbey Road Studios in London. It was the first recording by the Beatles that was not a Lennon-McCartney song. The song was written by Lennon on March 3, 1965, and recorded by the Beatles on March 14, 1965. The backing track was recorded by George Martin and the orchestra, while Lennon played lead vocal and Harrison played bass. Other versions An instrumental version of this song was included on the first US issue of the Beatles' White Album album. This version appeared as a bonus track on the US and Canadian versions of the LP and was later included on the mono version of the Beatles' Love album in 1976, and again on the 1991 remastered edition of that album. In July 2008, the Beatles' entire catalogue was remastered 82157476af
